

Senators:

Show your support for Canadian farmers, growers and ranchers by supporting the swift passage of Bill C-234 into law.

Canadian farmers are environmentalists and stewards of the land, committed to sustainably feeding Canada and a growing world. **Carbon surcharges on necessary farm practices** for which there are no viable alternatives **reduce the working capital needed to reinvest** in the efficiency and sustainability of their farm operations.

With Bill C-234 before the Senate, ACA urges all Senators to stand with Canadian producers and support its swift passage, without amendment, into law. **Bill C-234 will help unlock the full potential of our agriculture sector and drive sustainable innovation on farms.**
